EPOXY SYSTEM

HYGIENIC AND SEAMLESS PROTECTION

Resinous and high-performance flooring systems create seamless surfaces that are extremely durable and easy to maintain. The non-porous surface makes spills easy to clean and provides superior protection against the growth of mold and bacteria compared to tile and grout options.

DESIGN OPTIONS

The design possibilities of Magiechem Coatings floors are endless. Use multiple PIGMENT colors to create unique effects and color patterns, or, use one color for a more subtle appearance.

Choosing the right basecoat can also affect the look of PIGMENT floors. Choose a lighter basecoat for brighter, more vibrant colors--or a darker basecoat for deeper, more intense colors.
